Flow Chart - VG

```
Data Collection
  → Research Study Area (Literature Review, Determine Research Scope)
  → Download Free Data (CSV, Shapefile, FeatureClass, JSON)
  → Organize Default Database (File Geodatabase and Folders)

Data Analysis
  → Use Mapping Software (ArcMap, Rstudio, Microsoft Outlook)
  → Use Geoprocessing Tools (Select by Attribute, Intersect, Spatial Join, Merge, Feature Class to Shapefile)
  → Data Management (Create & Calculate Fields, Edit Data Tables)

Data Visualization
  → Create Map (Turn off/On Layers, Change symbology)
  → Create Layout (North Arrow, Legend, Scale Bar, Title, Sources, PDF to be exported)
  → Create Poster (Compile multiple maps, showcase digestible information)
```
